[Go back to the overview](#)

Type HS (conduit holder)

The HS conduit holder is made of specially modified polyamide. The material is halogen, phosphor and cadmium-free. The HS holders are used as a conduit holder system that can be arranged in rows and stacks and can be adapted to different installation situations with optional accessories.

- The holder features the following advantages:
- Flexible system
- Stackable
- Arrangeable in rows

Halogen-free

GL approval

-40°C – 110°C, 140°C

V0
